1. Barracks on Karl Marx-Strasse

Service activities mainly take place in the barracks. Infantry practice in groups of ca. 10 men were several times observed. In the last part of December no tanks were noticed on the training ground on the road to Neuburg.

2. Parchim Airport

Air activity was noticed again 24 December. Most of the flying is done at night. Several times there were up to 20 planes in the air. In the daytime usually two or three planes are up at the same time. In the dark, only single planes have been observed flying.

By once more observing the radio station north west of Markower Mühle, it has been established that this is located ca. 100 meters from the house, and that right under the trees there is a little cottage. From each treetop a small wire leads down to the mast on the cottage. South of the "Markwardtsche" house there is another house which is occupied by soldiers from the air force. The force is estimated to be ca. 50 men.
